

Hi! My name is Randall and I'm a teenager from CO. K-LOVE provides me with a positive message to get me through my crazy day. If K-LOVE was replaced with other programming, people would not be able to have the opportunity to hear a positive message in a world full of negativity on the radio and TV. I feel that K-LOVE is an important part of Life and our community, because of the positive message, hope, Peace, and service it provides. K-LOVE has people on staff 24-7 to assist people's needs in hard times. This service is free and may become unavailable to people who need it most if you decide to change programming.

Thank you for your consideration,
Randall
